

RUNWAY STATUS LIGHTS (RWSL) AT DALLAS FORT WORTH (DFW) WEST

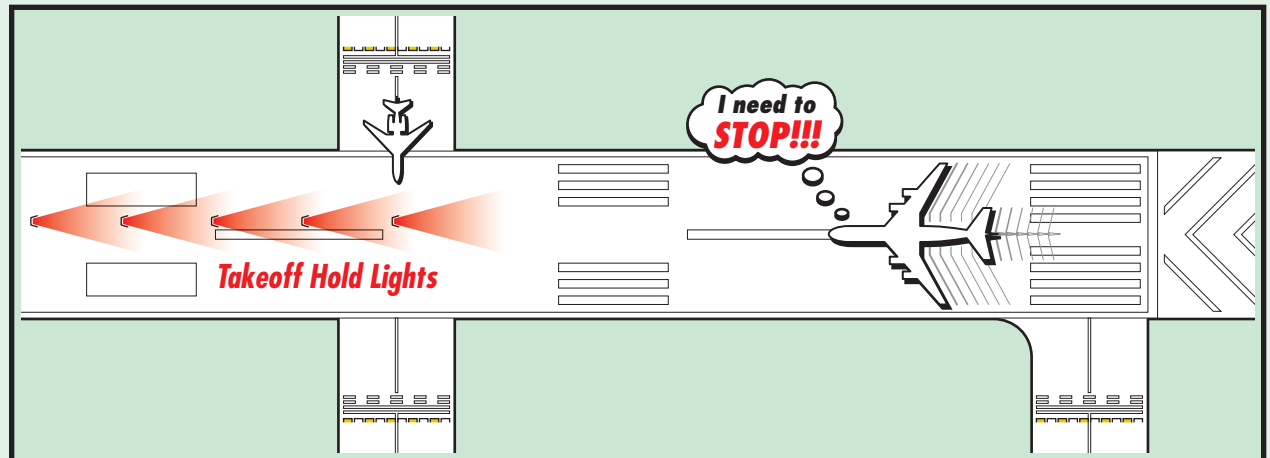

Federal Aviation Administration

If THLs are **RED**, STOP! THLs are **RED** when it is not safe to take off.
Remember: Lights indicate status only, never clearance!
Surveillance-driven lights turn on/off to increase situational awareness.

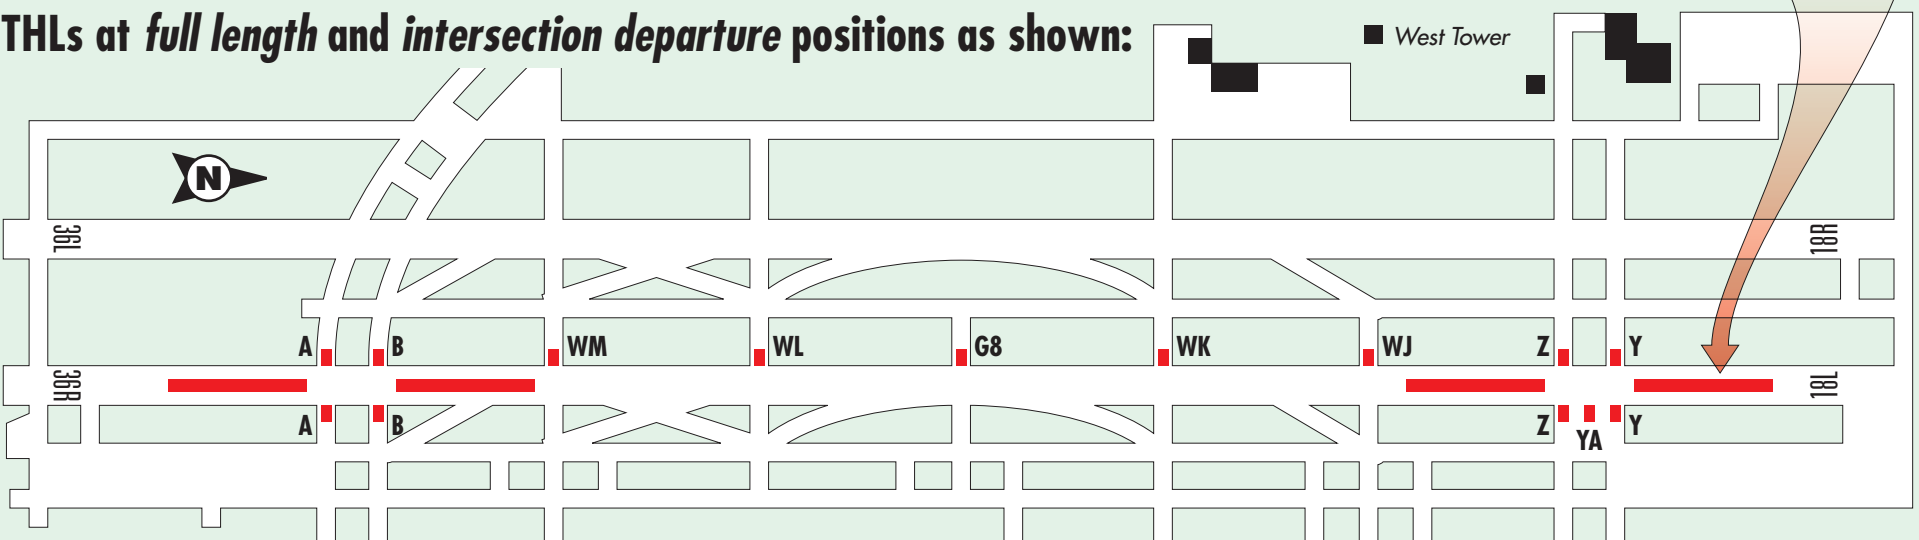

Pilot's view of Takeoff Hold Lights (THL)

TAKEOFF HOLD LIGHTS (THL) ON 18L/36R DFW

THLs at full length and intersection departure positions as shown:

RWSL OPERATIONAL CONCEPT

**RELs and THLs turn on and off automatically, driven by multi-sensor surveillance.
RELs turn on when it is unsafe to enter runway; THLs turn on when it is unsafe to depart from the runway.
THLs are visible from takeoff hold position (and final approach); RELs are visible from taxi hold position.**

RELs: Runway Entrance Lights
THLs: Takeoff Hold Lights
